Claims 1 and 3-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of the independent claims state that "said **first portion** being coupled to said second portion for being inserted into the housing **to depress clips**." This contradicts the description which states that "The **second portion** 24 is designed for being inserted into the housing 3 **to depress clips** 4 of the clip member" (specification, page 6). Further each of the independent claims states "a perimeter wall....for receiving the parking brake cable". It is unclear what it meant by this statement. This appears to suggest that the cable is being threaded through the bore such that the perimeter wall is solid for 360 degrees which is an embodiment not suggested in the description. The claim lacks sufficient structure for the use recited inasmuch as there is no structure in the claim to facilitate the perimeter wall receiving the cable through the radial portion of the perimeter wall. For example, the claim should have a limitation such as "the perimeter wall having means for receiving the cable through a radial portion of the perimeter wall" in order to provide sufficient structure capable of performing the intended use recited in the claim.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
